**Work on Sint Pieterstraat and surroundings  
 Sint Pieterstraat Maastrichter Heidenstraat & Hondstraat,**

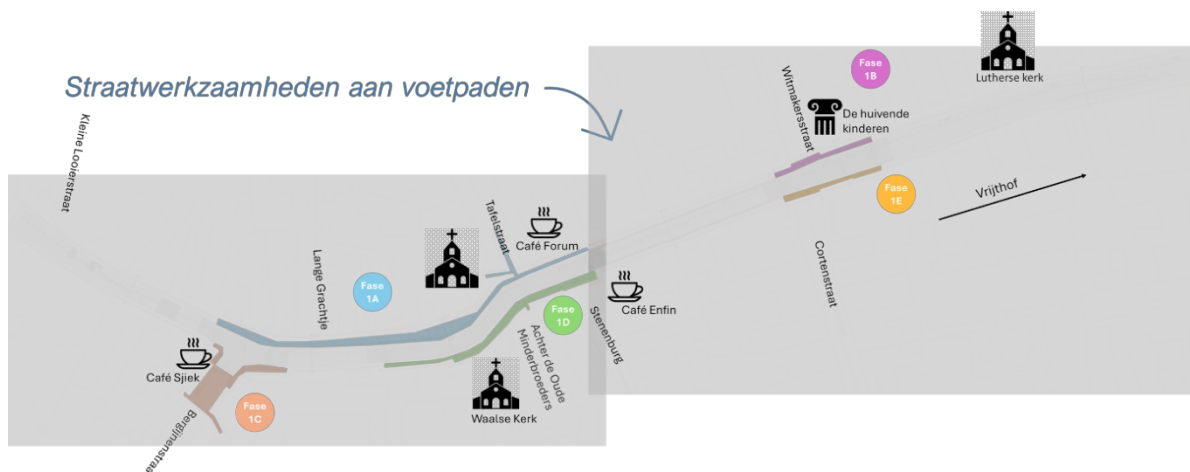

16 September 2024, Maastricht

Dear Sir/Madam,

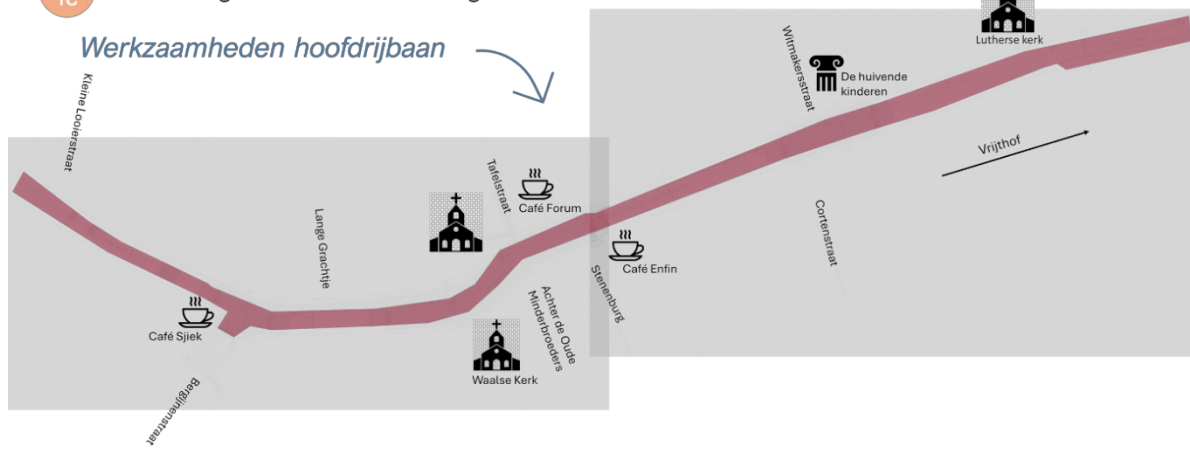

KWS Infra Eindhoven will soon start carrying out work in your area. We will be working on the footpaths and the carriageway. We are doing this on behalf of the municipality of Maastricht. We would like to inform the neighbourhood well about these works. This letter therefore contains more information on the planning, accessibility and other practical information.

**Planning**

Work on the footpaths will start on **Monday morning, 30 September 2024**. We expect this work on the footpaths to be completed on Friday afternoon, 1 November. We will also carry out work on the carriageway on **Monday 28 October 2024, Monday 4 November and Tuesday 5 November**. We will work on these days provided we are not affected by weather conditions. The image below shows the relevant work area.

- Fase 1A** Maandag 30-09-2024 t/m maandag 14-10-2024
- Fase 1B** Maandag 14-10-2024 t/m woensdag 16-10-2024
- Fase 1C** Woensdag 16-10-2024 t/m dinsdag 22-10-2024
- Fase 1D** Woensdag 23-10-2024 t/m dinsdag 29-10-2024
- Fase 1E** Woensdag 30-10-2024 t/m vrijdag 01-11-2024

### Nuisance

We will do our best to minimise inconvenience. Therefore, work on the footpaths will take place only on Monday to Friday between 07:00 and 18:00. Work on the carriageway will be carried out on two Mondays and one Tuesday. We chose these days because it causes the least disruption to business owners. We will close the road only at 09:00 and reopen to motorised traffic at 16:00. This way, we ensure that you can get to and from work by car.

For safety, we deploy traffic controllers. They guide everyone and make everything run as smoothly as possible.

### Accessibility

During the footpath works, the entire street will be accessible to pedestrians, cyclists and motorised traffic. We will keep the shops, restaurants and houses adjacent to the works accessible via walkways.

During the work on the carriageway, Sint Pieterstraat will be closed for 3 days from 09:00 to a maximum of 16:00. Both before and after our works, the carriageway will be accessible as usual. During these works, cyclists will be diverted via Kleine Looierstraat and Achter de Molens. This will be made clear with signposting. The diversion is indicated by the pink arrows on the map to the right.

### Visit our information session

We cordially invite you to our information meeting on **24 September 2024 at 19:00 at Stayokay Maastricht**, located at Maasboulevard 101. The walk-in is from 18:45 and the presentation will start at 19:00. During this meeting, we will be happy to explain this work, its phasing and planning. During and after the presentation, there will be an opportunity to ask questions.

### Further information

Do you have any questions? Feel free to ask our environment manager Isa! For comments, suggestions and complaints, please email [ivermin@vwinfra.nl](mailto:ivermin@vwinfra.nl) or call 06-50224931. We also have a booth at work where you can walk in during working hours to ask questions.

### Deployment of BuildingApp

Good communication is important to us. To make this easy and fast, we use the KWS BouwApp during the work. This app keeps you informed about our work. You can also use this app to report inconvenience and ask questions. You can download the app for free by scanning the QR code alongside. Or search for 'KWS Bouwapp' in the Appstore/ Google Playstore.

We trust we have provided you with sufficient information with this letter.

Warm regards,

The project team of KWS Infra Eindhoven
